I am writing to support Microsoft in the antitrust case they are entrenched in. I am in favor of Microsoft because of America's free market system. I strongly believe that government try to avoid restrictions on free enterprise, and that in this case, Microsoft should be left alone.

In regard to this case, Microsoft has assented to terms that were originally non-factors in this case, such as terms concerning disclosure of intellectual property. Microsoft also will undertake changes in its relationships with other IT companies. Under the settlement, Microsoft promised not to strike back at those developers or makers who attempt to manufacture, ship, or advertise competing companies' software.

I have grown tired of hearing about the Microsoft case. Again, I believe that Microsoft as a corporation should be free to conduct business as it see fit. However, it is my hope that you, as the justice keeper of this great country, will bring this case to a quick and fair end.

Sincerely,

Nick Pardasani
